

Changes at the Curb!

Perhaps you received a slick trifold brochure recently from our Environmental Services Department – VEOLIA – and “86ed” it into the round container, along with other recyclables!

As creatures of habit, our community has long been accustomed to the sound of the large green trucks every Wednesday morning...but no more! We have two pick-up days for our three items: garbage, recyclables, and yard waste...but they're DIFFERENT days now.

If we read the diagram correctly, put those animal-proof garbage containers curbside late Sunday night or very early *Monday* morning. (And if anyone has found the magic animal-proof container, please let us know!) Recyclables and Yard Waste will be picked up on *Tuesdays*.

VEOLIA has made some minor changes to what can/cannot be picked up in all three areas of collection. As in most things, some items make sense while others don't as far as what is “collectible”!

If you tossed or misplaced the brochure, please contact them to request another: 334-1224.

Garbage = Monday
Yard & Recycling = Tuesday
